2. The phrase “no extra resources required” should be understood that the planned activities are financed through the ERB joint budget (from membership fees) and/or resources allocated by each region to cover the cost related to the organisation of and participation in ERB events such as meetings of EB, YB and RS.

Background

Euroregion Baltic (ERB) Action Plan for 2018 was adopted on 16th February 2018 at the beginning of the new presidency within the organisation assumed by the Regional Municipality of Bornholm. Usually the ERB action plans are of biannual character as they better streamline stakeholders' resources and concretise results they expect, especially from longer-term strategic actions. This particular ERB Action Plan is intended to finalise the development of the new ERB strategic approach initiated at the time leading up to the 20th Anniversary of ERB and resulting in a new cooperation development strategy entitled the ERB 2030 Agenda. Due to this fact the Action Plan will encompass only one year, setting the stage for a brand new AP developed on the basis of the new ERB Agenda.

Goals

The ERB 2020 Agenda (adopted in 2010) provided the necessary strategic framework by defining the vision for Euroregion Baltic. According to the vision, in 2020 ERB will be a more dynamic tool to tackle common challenges observed by its members, and a strengthened political leverage in the cross-border cooperation of the Baltic Sea Region. Having analysed the implementation of the ERB Action Plan for 2017 and 2018, and started the strategic revision of the ERB cooperation, the stakeholders decide that the 2018 Action Plan focus especially on activities finalising the process. While this process is being implemented, the Action Plan recommends that some of the ongoing activities would still contribute to the implementation of the two main goals of ERB 2020 Agenda: making ERB an effective political tool, as well as making ERB efficient in dealing with common challenges.

Apart from internal documents guiding ERB cooperation, there are also external documents and initiatives that are of vital importance to the organisation's work. These include the EU Strategy for the Baltic Sea Region, and their flagships, which contributes to the enhancement of cooperation in the Region and aims at bringing together initiatives in different sectors to reach its three main objectives - save the sea, connect the region and increase prosperity. The second important document is the Europe 2020 Strategy which is intended to create conditions for a smart, sustainable and inclusive growth in the European Union.

ERB members deal also with challenges included in one of the Europe's 2020 flagship initiatives – Innovation Union. In this context it is important to remember about the biggest EU Research and Innovation programme - Horizon 2020 and possibilities that ERB could benefit from. Also worth mentioning are important sector programmes such as Erasmus+, Europe for Citizens, Life, Creative Europe and the Health programme, but also the European Social Fund and the regional funds where transnational cooperation now becomes an essential part.

As ERB includes a member organisation from the Russian Federation, i.e. the Kaliningrad Region, it is therefore also important to make reference to the Strategy of social and economic development of the North-West Federal District until 2020, which guides the development in such areas as development of sustainable, innovative and diverse economy, improved environmental protection, better transport connections and attractive tourist offers as well as improved capacities for cross-

border cooperation and development of innovative socio-economic potential in such areas as education, health care, social policy, youth policy, culture and sports.

In their joint cooperation efforts all ERB partners will seek the best possible solutions to address common challenges and will therefore look for synergies in diverse strategic frameworks employed throughout the Baltic Sea Region. Working in this manner ERB members will be able to effectively tackle those of the challenges which have different impact on particular regions.

Actions

The actions planned to help ERB stakeholders tackle common challenges take into account interests and ambitions proposed by the member organisations.

Assuming the leading role in the organisation in 2018, the Regional Municipality of Bornholm will focus on the consolidation of ERB cooperation to secure the results achieved to date and use them to further develop the organisation. In this context, the adoption of the new ERB 2030 Agenda is seen as main activity of the Presidency. Furthermore, continuation of effective lobbying for the future EU Cohesion Policy, focusing especially on the Interreg South Baltic Programme after 2020 will also be prioritised. The ERB's participation in the implementation of the Agenda 2030 and its Sustainable Development Goals (SDGs), especially in the context of the Baltic Sea and the CBSS's Baltic 2030 Action Plan, will be treated as a horizontal activity. The organisation will also continue to engage in concrete multi-stakeholder cooperation with other pan-Baltic organisations, especially with BSSSC and UBC on strategic youth cooperation, with CPMR Baltic Sea Commission on the regional aspects of the SDG implementation, and with CBSS on both youth and sustainable development activities identified in Baltic 2030 Action Plan.

The actions designed to improve the political role of ERB are divided into external and internal ones. Externally, ERB will participate in the implementation of ETC and ENI programmes in the Baltic Sea Region, and in the implementation of the EU Strategy for the Baltic Sea Region, as well as cooperate with relevant actors at the EU, national and regional levels. Internal efforts will focus on the enhancement of the stakeholder approach and the enhancement of ERB internally.

Monitoring

ERB Action Plan for 2018 gives an outline of activities, each of which will require specific structure and framework that are impossible to define at the present moment and will have to be agreed at a later time. Therefore, the role of the ERB Executive Board is crucial in the regular monitoring of its implementation. The most important criterion while assessing and guiding the delivery of the planned results should be the level of their contribution to the goals of the ERB 2020 Agenda, and also the development of the ERB 2030 Agenda till the end of 2018. Moreover, this Action Plan also indicates the source and size of the incoming joint resources, as well as their allocation and expenditure, which will be part of the monitoring activities by the ERB Executive Board.
